"Through the Grapevine" is a collection of our exemplary writing. Students showcased their writing skills through their excellent sentence structure, use of a wide range of vocabulary and innovative and inspiring ideas. In the recent years, under the guidance of our teachers, our students have honed their writing skills and clearly articulated their imagination into meaningful writing. We have deliberately arranged reading class every Friday so that our students can cultivate a better and consistent reading habit in a positive environment.

I hope that you will enjoy reading "Through the Grapevine", and take a note of our teachers' constructive comments. We are looking forward to collecting more pieces of high quality writing in the future.

Christmas is Coming

Silent night, Holy night.

All is quiet, all is fine.

Christmas bells ring in the snow,

Christmas stars shine a glow,

Christmas trees are as bright as lights,

People decorate them with delight.

Silent night, Holy night.

All in harmony, all in peace.

Yummy feasts put on the table.

Lovely kids listen to the fable.

Christmas sack is as big as a bag.

Amiable children hang it on the head of a bed.

Silent night, Holy night.

Jesus Christ the Saviour is born.

People beep the pleasing horns.

The whole world joins in the jubilation.

The streets are illuminated for the celebration.

5W Sophie Chan

On Christmas Night

On Christmas night,

The moon is bright.

Many people in the street,

As many as stars in the sky.

Many friends we can meet,

Lovely presents we can buy.

Christmas party is fun,

We love eating buns.

Party food makes me fat,

My Christmas gift is a hat.

More good things we can do.

Jesus always blesses you.

5H Jacky Yu

Christmas is Coming

I have a party to celebrate Jesus's birthday,

Everyone shouts, "Hurray! Hurray!"

All of us dressed as red as cherries,

And have a cake with many berries.

Then we go to church

To worship God.

We are as happy as clowns

Because Jesus was born in Bethlehem town.

Be quiet! Baby Jesus is sleeping.

Maria and Joseph are near,

And everyone is peaceful and calm.

"Happy birthday, Jesus" everywhere I can hear!

5L Edward Tse

Christmas is coming

Presents are coming,
But the homework pile I have,
Is as high as mountains.

Oh teachers!
I don't want to do any homework.
I want to play computer games
Or play on the climbing frame.

I need to go to church
To celebrate Jesus's birthday first.
Then I go to school by train,
To do some caroling.

“Do your homework,” said Mum,
And she tells me to do lots of sums.
“Do your housework,” said Dad,
And he tells me to clean up the flat.

During the whole Christmas holiday,
I'm as busy as a bee.
I have no time to take a rest
And no time to be free.

Oh why is Christmas
A busy day?
Can't celebrate
The big day with Jesus during holidays!

Christmas is Coming

Many years ago,
Jesus came leading the way.
Jesus likes the Sun,
He warms the Earth.
Jesus likes the ocean,
He nurtures living things.
Jesus likes the air,
He gives us life.
Jesus likes the teachers,
He brings us wisdom.
Jesus loves people,
He sacrifices Himself for our sins.
We love Jesus,
We thank Him for His mercy.

6D Ethan Pang

Christmas is Coming

On Christmas Eve, I am going to a Christmas party.
I can play many games with my friends,
I will play as naughty as a monkey.
On Christmas Day, I am going to Macau.
I can eat a lot of things with my family,
I will eat as fast as a pig.
On Boxing Day, I am going to the Carnival in Central.
I can ride on the cable car and roller-coaster with my cousin,
I will play as mad as a crazy guy.
Let's celebrate the big day with Jesus,
And give our best wishes during Christmas.

6W Jeremy Leung

Christmas is Coming

Christmas is joyful.

Everyone is cheerful.

As we know,

Jesus was born in Bethlehem,

The angel told the shepherd that the King has come.

The shepherd cheered baby Jesus and gave him presents.

As we can see,

The star is as bright as a light bulb.

The straw is as soft as a cotton bed.

No time to worry,

No need to hurry,

It's time to love.

Be thankful and be glad.

6H Element Mui

At Christmas Night

Go to Church,

Celebrate Jesus's birth.

With all people on the Earth.

Let's receive our king.

When bells ring,

And we sing.

After the mass,

We have a Christmas party with funny masks.

Everyone enjoys the party at last.

At this Christmas night,

Jesus's glory as bright as sunlight.

He likes our light.

6L Nicholas Wong

Christmas is Coming

Silent night, Holy night,

Jesus came to calm the fright.

Jesus was born at midnight,

The holy, lovely Christ.

Silent night, Holy night,

Round the manger and all was bright.

And beautiful star was above the stalls,

Like an indicator light.

Silent night, Holy night,

Baby Jesus was in the manger,

What a beautiful sight!

He would be liked as a hero to save us from danger.

We all celebrate the big day with Jesus,

He sacrificed his life to rescue us.

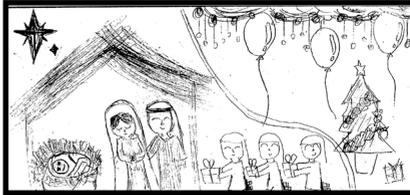

No matter the rich or the poor,

Let's celebrate with this saviour

Christmas is Coming

Christmas is a day to love,
Where Jesus was born on a night so cold,
And the star was shining above.
With balloons of gold,
People celebrate this festival with happiness.
The decorations are as attractive as diamonds,
And the city is as busy as a bee.
Christmas is a day to be grateful,
As the son of our Father Jesus,
Had greatly sacrificed for us.
Let us all be faithful,
And celebrate this festival meaningfully.

At the School

Hopping to school every day.
On the 5th floor where we can play.
Naughty is not a good choice.
Excellent work makes us feel joy!
Studying hard is our aim.
Tests and exams are exciting games,
You love school and me the same!

School Picnic

Today is our school picnic. We went to a country park. In the country park, there were a lot of plants, so we explored different kinds of plants like Lilies, Roses, Magnolias, Hong Kong Orchid Trees, Venus Flytraps, Honeysuckles, Camellias and lots more.

After that, we sat under a tree and ate some food like sandwiches, cupcakes, and so on. While Tom was eating his sandwich, an ox suddenly came up. Tom was frightened and then he accidentally dropped his sandwich. "Oh no, I dropped my sandwich." Tom said. Then I said to Tom, "Don't worry. I can give my cupcake to you." Tom thanked me and said, "It is very yummy!"

Next, a farmer came to look for his ox. "There you are!" The farmer said when he found his ox. Then he asked us, "Do you want to try riding on the ox?" We answered, "Yes!" At last, each of us had a ride on the ox. It was so much fun! Today ended with great happiness.

School Picnic

Today, I went to a beautiful country park called Tai Po Waterfront Park.

In the morning, I looked at the bushes, which were green and small. My classmates observed the flowers, which were pretty.

Then, we were hungry, so we had our lunch under the tree. I had a sandwich, a little orange juice and some tasty cakes.

Suddenly, a big fat cow came out. I was so scared that I dropped the food on the ground and shouted, "Ah!" All the classmates came to help me. They found some hay and the cow got away.

Finally, my classmates shared their food with me and I thanked them. What an amazing day!

Today is a sunny day. I went to Sai Kung Country Park with my classmates for a school picnic and we got there by coach.

First, I looked at many different plants with my classmates. Then, I was hungry, so I found an empty place under the tree to have a picnic. I ate a sandwich and two cakes. When I was eating my sandwich, an ox suddenly popped its head out from behind me. I was scared, so I dropped my sandwich on the ground. Next, the ox ate my sandwich but it was still hungry.

Finally, I asked my classmates to give some food to the ox and we had a good time feeding it.

An Accident

Kenny and his brother played football in the dining room. When Kenny kicked the ball to his brother, his brother could not catch it. The ball accidentally broke their mother's cup. Kenny exclaimed, "The cup is broken!"

Then, they both agreed to tell a lie. They made up a story that there was someone playing a toy plane outside the house and the toy plane flew into the house and broke the cup. But after their mother heard that, she thought it was very strange because the windows are closed. "How can a toy plane fly into the house?" she thought.

After that, she went to the dining room and checked the windows. "The windows are closed and not broken." she said. Kenny and his brother were scared. They tried to distract their mother, but it was no use. When their mother looked under the table, she saw the broken cup and a football beside the cup.

At last, their mother was very angry, so she grounded them that they could not go out to play for one week.

A Picnic in Bell Park

Last Saturday, I had a picnic with my family in Bell Park. The sun was shining brightly. It was a superb day. We brought some tremendously delicious snacks and Dad had his expensive camera.

We sat down on a red and white checkered picnic blanket and started our wonderful picnic. Suddenly, we heard two dogs barking very loudly. They looked tremendously mean and extremely fierce.

After a while, they came to our picnic blanket and fought extremely hard. Sadly, our food was messed up, and the drinks were spilled. We felt very disappointed and heart-broken since everything was ruined. When the owner discovered that his dogs were fighting, he took the dogs away and said sorry to us.

The picnic ended when the crazy owner walked away. We cleaned the spilled orange juice and took some photos while we walked away. We felt very relaxed when we walked away. We hope when we go there for a picnic next time, there won't be any dogs.

Last Saturday, my family and I went to Bell Park for a picnic. The sun was big and shining bright. It was a sunny day. First, we brought a rectangular, brown basket and Dad had his expensive big, grey camera.

Next, we sat down on the picnic blanket. Suddenly, we saw two dogs fighting on the grass. They were barking loudly because they were very angry. They looked fierce and mad. We started to have lunch.

Then, the dogs ran over to our picnic blanket to fight. So, the food and drinks were spilled everywhere. We felt very scared and they made a huge mess.

Lastly, the owners of the two dogs came and stopped the dogs from fighting. They said sorry to us and punished the dogs because they were very naughty. After that, we tidied up the picnic and went home to eat instead of eating in Bell Park.

I don't want to go to Bell Park again, never! I think we will go to Cherry Park instead because we don't want to see the dogs anymore. We don't want them to make any mess again.

New Year Resolutions

New Year 2019 has started. I have three goals that I want to achieve. First, I am weak in Chinese. I am going to read more Chinese storybooks and do more supplementary exercises. I hope I will improve my Chinese.

The second goal is that I would like to be slim and do more exercise.  Then I can be fit and strong.

The third goal is that I have to change the lazy and bad habits because I seldom do housework. This year, I have decided to do simple housework with my mother such as washing dishes, sweeping the floor and helping my mother to cut vegetables.

I hope I can achieve all my goals in 2019.

5W Rex Shen

New Year Resolutions

In 2019, I wish my academic achievement will be improved. I also wish to return to swimming training and become stronger.

First, my result wasn't ideal until now since primary one! Therefore, I have planned to spend at least 45 minutes for revision every day. If I have any questions, I will ask my teachers immediately.

Second, I have suspended my swimming training because of my skin problem. After the treatment of Western medicine, I hope I can swim again.

Finally, I want to be stronger because I am weak! I will eat more nutritious food and try to avoid eating too much junk food. I will do more exercise as well.

5L Lynnchy Cheung

New Year Resolutions

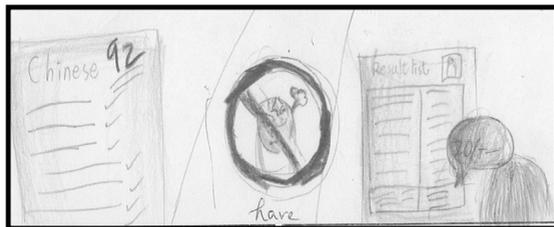

At the beginning of the New Year, I have three important goals to achieve. These goals are really challenging to me. I just want to attain these goals or leave them behind my path. I want to make these goals come true.

The first goal that I want to complete is to be good at Chinese. I want to have brilliant marks in exams and tests but honestly, I'm extremely terrible at Chinese. It just makes me stressed all the time. I don't even understand simple words. So basically, I should work hard every day in order to finish this 'mission'.

The second goal of mine is to control my temper. I'm often stressed out all the time. When my mother told me to correct some mistakes, steam comes out from my ears! It's just that I often think that every single answer of mine is always correct. I'll try to change this bad habit.

Lastly, I want to be one of the top 20 students in my class. For this to happen, I should work hard every single day.

I should try my best to make all of my goals come true.

New Year Resolutions

The year 2019 has started. Now, it is my chance to sit down and prepare a list of important lifestyle changes that I want to make.

Firstly, I need to learn to control my emotions. When I get mad, I will need to take a deep breath and drink some warm water to cool down myself.

Secondly, I need to read more because reading is an excellent way to gain a lot of knowledge. I will go to the library once a week and read for thirty minutes every day.

Lastly, I need to become more organised. I will tidy up the toys and my bookshelf every Sunday. I will make some labels to classify my toys and my books.

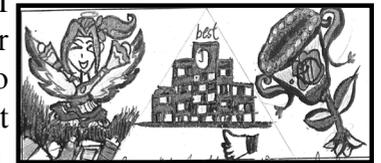

I will try my best to achieve all my goals this year.

New Year Resolutions

The year 2019 has started. I have three goals for my New Year resolutions and I will try my best to achieve my goals. First, I will defeat the eczema, that is my skin disease.

How do I defeat it? I will take good care of my skin, that means putting more cream and lotion on my body, not to scratch my body and avoid eating eggs, cheese and kiwis. Next, I want to study at my favourite secondary school. I need to study as hard as I can and get prepared for my interview. Lastly, I want to win in the competition of drawing flowers. I need to have training in drawing flowers with watercolours. I enjoy the competition and I always remind myself to observe and view more flowers!

The third goal is to lose 10 kilograms in 2019. I will do more exercise and eat more vegetables. I will avoid eating too much meat and too many sweets.

These are my goals for my New Year resolutions.

It is 2019 now. The three goals for my New Year resolutions are: to enter the secondary school that I like, to be the champion of the academic basketball match, and to be the top student in P.6.

I will graduate this year. I will study in a secondary school in the coming September. No one wants to study in a school that he/she doesn't like, including me. Therefore, I will do my best in the interviews and read more English books. Reading English books helps me in the interviews.

I have played basketball since I was in Primary four. I like it very much. So, I want to work with my teammates and be the champions. There is only one more basketball match for me in my primary school life.

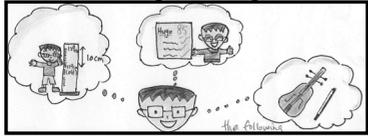

Lastly, I will study harder to be the top student in P.6. I hope I can achieve these three goals this year.

My Trip in a Time Machine

If I have a time machine, I will travel to Stone Age!

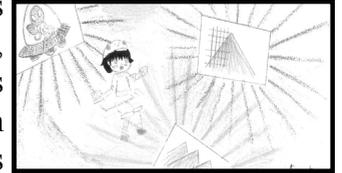

I love Stone Age but I can only get the information from the media, books, newspapers and TV programmes. I want to see the real mammoth and primitive. I wish to spend the Easter holiday to experience the life at Stone Age but I won't stay there. It is because there is no Internet, social media and smartphones in Stone Age. My Trip in a Time Machine

If I have a time machine, I will return to 4500 years ago. I would go to the Egypt to find out the secret of pyramids.

Till this moment, most scientists think that pyramids are not artificial, some scientists have inferred that aliens came to the Earth and built pyramids in Egypt. Over many years, many scientists wanted to explain how to build the pyramids. So, I want to find out the secret behind the pyramids.

If you ask me whether I would like to stay there... I will answer you. No. That's because I will be back to the present and tell the scientists the answer.

Going back to 4500 years may be hard but it can help the scientists to solve the problems. It is great!

If I had a time machine that could take me backward in time, I would like to travel to the past.

I would like to find Noah, a man who lived 5000 years ago that obeyed and trusted in God. I want to learn from him. I would like to know how to build an ark. He and his family were saved through the Flood. I would help him to get all animals and collect food to the ark.

It would be an interesting job. I would like to visit Noah, but I would not like to stay there. It's because I love my parents and hope to stay with them until I grow up.

Then, I would go to the Moon. I would see many children jumping up and down, flying in the sky. I would try to jump on the moon but I might jump too high. I may forget the Moon didn't have any geocentric suction so I may end up flying out of the Moon. Luckily, all the children there would quickly pull me back. I would be thankful to them!

I would like to stay there. It is because I could meet a lot of new friends and I would watch the beautiful Universe in my time machine.

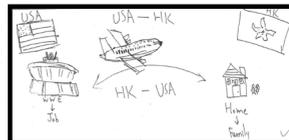

5F Alden Chau

My Trip in a Time Machine

My Trip in a Time Machine

If I had a time machine that could take me forward or backward in time, I would like to travel to the future. I would visit a school in the future. I would like to see how students study after 100 years.

When I opened my eyes, I found myself in a classroom floating in the air. The students sitting around me were wearing masks and carrying their own oxygen tanks. The sky was grey and dull. I found it difficult to breathe. The student who sat next to me asked me to keep quiet. They didn’t have textbooks but they had small-sized computers which could be put in the pockets. When they took them out, they could become larger. There was no teacher in the class, we could just hear a mechanical voice telling us what to do.

At the recess, I wanted to talk with the students. However, I was shocked! All the students were robots! All of them talked to me in cold voices and they had no feelings.

I would not like to stay there because the air was seriously polluted. I couldn’t find any trees or plants around. The people looked like machines and I had no friends to talk to or play with.

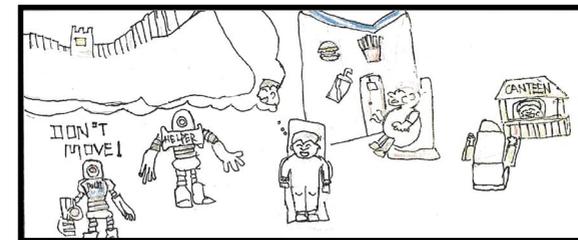

6L Martin Fung

My Trip in a Time Machine

If I had a time machine that could take me forward and backward in time, I would like to travel to the future Mainland China.

There would be lots of electric chairs which could take me everywhere I like. So humans do not need to walk by themselves. In addition, there would be many robots serving humans in their daily life. The robot would take me on the electric chairs so that I could travel to different cities in Mainland China. I could watch many beautiful scenes and buildings in different cities of our country. One month later, I would return to my normal life by switching on the time machine again.

I would not stay there forever although it should be more convenient and advanced. I enjoy living with my family. Moreover, I want to walk by myself so that I will not get fatter. More exercise will make me healthier. So, I prefer to live in the time now.

My Birthday

Today is my birthday, so my parents took me to a toy shop to buy me a birthday present.

When we entered the shop, the salesperson was playing games on his phone. I saw a giant teddy bear on the shelf and I wanted to buy it. However, when Mum asked the salesperson to give the teddy to me, he threw it to me impolitely. He said he lost the game because of my disturbance. I felt very sad and bursted into tears. Then, Dad made a complaint to the manager. The manager was angry with the salesperson and fired him.

We thought the salesperson deserved to be fired. He should have served the customers with hospitality.

Last week, Jack and Alice went to a fun fair to play. They were excited about that.

First, they went to the stage in the middle of the fair to watch a pop singer’s performance. They felt fantastic as they could enjoy the show. When Alice was enjoying the music, a man stealthily walked near her. He took Alice’s wallet out of her bag and quickly ran away.

Then, when Jack and Alice queued up for buying a ticket of another show, Alice found that her wallet had disappeared. She was worried. Jack told Alice to use his money to buy the ticket first. He would help her find the wallet after that.

At last, they went to the police station to report the case. The police officer said he would call Alice if her wallet was found. A few weeks later, Alice got her wallet back and she thanked the police officer.

Crazy Flood Experience

When I was ten years old, I experienced a horrible flood. When I was playing PS4 at home, I was with my dad and sister. Suddenly, I saw water rising up and I was shocked!

First, my dad gave us some lifejackets and warned, “Don’t panic or you will DIE.” My sister, Cherie and I were scared because we didn’t know how to swim. We followed our dad’s instructions and we were floating in the flood by that time. I saw underpants, a toy duckie, a fridge and even a cute little dog!

Finally, the flood stopped and we were saved by the rescuers. Unfortunately, the little dog had died. The flood destroyed our home and buildings. I hope that it won’t happen again!

Burglary on Hilltop Road

Holly’s family were having a party at home at three thirty. During the party, they were having so much fun. Holly’s dad was sleeping in the room while they were playing,

Suddenly, Holly heard a growling dog and cat. She went to take a look, and saw the footprints of her dog and cat on the tablecloth. But the most important thing was that Grandma’s vase was missing!

Spilled water, some flowers and a half-eaten cake were left on the floor. Holly screamed, “Who stole Grandma’s vase?” Holly’s dad heard her scream and ran out of his room. He went out of the house, saw a man with a big bag running out of the house and screamed, “I’m going to catch you!” But the man said that he didn’t have the vase.

After Dad caught him and extorted a confession, the man finally told Dad the truth. He stole lots of money and the vase because he saw some jewellery inside the vase. He quickly broke the vase and gave the broken glass to the helper after taking the jewellery out. Dad called the police and the arrested the man for stealing.

A Book Report

This book is written by Dan Gutman and illustrated by Jim Paillot. It is a story about a strange teacher named Miss Daisy and her students. Do you believe that students can rule the school?

The story was about a teacher who didn't know the answer of four times four! She was Miss Daisy. The main characters were Miss Daisy and A.J. She made the children think for themselves by pretending to be a stupid woman. They had a lot of fun in class. One day, the principal said if the students could read a million pages of books then he would turn the school into a game studio for one day. The students did it at last.

My favourite part was when the students read a million pages of books because I thought it was really hard to complete such mission.

I would recommend this book to others because this book is funny, and I learned a lot of new words.

The Quest: Saving the Queen

Once upon a time, in the Kingdom of Wisdom, the Queen was captured. So the king ordered his army to go to Riddleland and rescue the Queen.

The army went off. General Tam looked at the map. "We need to go through the Monster Maze!" said Tam. The army prepared their weapons such as guns, swords and bombs.

When they arrived at the maze, they saw a lot of skulls and bones. It looked terrible! Suddenly, a booming voice said, "Welcome to the Monster Maze! On your path to the end, many monsters will attack you! No one could ever finish!" Tam divided this army into groups and they went into the maze. Tam's team killed all the monsters on his way and finished the maze. But the other teams had got lost and only a few soldiers came back with injured arms and wounded legs.

Tam looked around and saw a strange tower. He heard a woman crying inside. "Maybe that's the Queen." said Tam. They ran towards the tower.

In front of the tower gates, there was a riddle. "What starts with 'e', ends with 'e' and has a letter inside?" The soldiers started guessing. "Is it 'eye'? Or 'eve'?"

"No! It is 'envelop'! It starts and ends with 'e' and it holds a letter!" Tam exclaimed.

Tam was right. The gate opened. He continued to solve many riddles in the tower and they rescued the Queen.

Back at the castle. Tam was declared as the King as he was so smart.

My Best Friend - Cindy

Good morning everyone. Today, I'm going to talk about my friend. I think you won't feel surprised if I said my best friend is Cindy. We met each other when we were in Primary 4. We were in the same class but we were not close at that time. Luckily, we became friends later.

Cindy is a patient person. When I am puzzled on some questions, she will always help me patiently. Also, she is forgiving. When we argue, we will tell each other why we feel angry and then we improve ourselves. We always forgive each other within half an hour.

However, she has a naughty side too. She always teases me. When I ask her for tissues, she never passes the tissue to me in a normal way. Maybe she throws, or hides it. When we play basketball, she passes the ball to me when I do not pay attention. Of course she passes the ball lightly and it won't hurt me. I don't think her jokes are annoying. Instead, I think they make us closer and my responses faster too.

The most unforgettable memory between us would be joining the inter-school basketball competition. Cindy joined the basketball team two years earlier than me. After I joined the team, I practised hard and finally became a main player. We practised together and came third in the tournament.

I am so lucky as I've got this friend. Cindy is a loyal friend. She helps me and supports me anytime. I hope we will always be close although we may go to different secondary schools.

My Friend – Christina

Good morning. Today I'd like to talk about my friend. I think you already know who I am talking about. Yes! She is Christina.

Well, I met her when I was in Kindergarten. I remember that, she was cool and I was a bit shy at that time. However, we eventually became friends. Unluckily, I moved to another kindergarten after a year. Nevertheless, with the love of God, we were in the same class again after five years. In that moment, I was glad about it. We did not forget each other, we just smiled.

Christina is a humorous person. Whenever I take the school bus, I feel sick and dizzy. Therefore, she always tells me some jokes or funny things. Sometimes, when I have a stomachache, she will laugh at me! Christina is also a courageous friend of mine. In the graduation camp, she killed two spiders! I think it is so disgusting.

Then, I would like to share about our unforgettable memory. We were the ambassadors of visual arts. It was our first time but we were not nervous. We were excited about what and whom we were going to tell about these arts. We used our creativity to explain the art pieces in an interesting way. Even Father Ma appreciated our presentation. I'm so lucky to have a good friend like Christina, we never quarrel. I would be upset if we couldn't see each other, so I hope we can be friends forever.

This is the end of my sharing. Thank you.

My Best Friend – Herman

Hello everybody, I'm Martin, and I'd like to talk about a person today. You might ask, "Who is he? Why must it be him?" Well, let's start from how we met!

I met this person when I was in J.3 in a basketball class. Mr. Tang separated the students into two teams. He was the leader and I was one of his teammates. We fought for victory. We worked well together. After the lesson, we chatted together and went home. Then, we became friends. Now, he is also my classmates. But who is he? He is my best friend, Herman.

Herman is a patient person. He taught me how to do some difficult sums or Maths homework. If I do not understand, he would explain to me again and again. He is a forgiving person too.

One day in J5, I spilt some water onto Herman. I was really sorry. He did not get angry at me, but he forgave me instead. He is a true friend with a big heart.

To A Beach

Dear Judy,

How are you? Have you been to a beach before?

I went to a beach last Sunday. I went to a beach with my family. We went to the Shek O beach because it is one of the famous beaches in Hong Kong. I saw some sea animals like sea-shells and starfish. We swam and ate some fruit. We watched the sun going down. It was huge and orange. It sank into the ocean. Then, we shook the sand out of the towel and we got back home in the evening. We felt delighted!

I hope to hear from you soon.

Best wishes,
Martin

To A Beach

Dear Judy,

How are you? I am very well.

Last Saturday, my parents were free. They took me to the beach by car. I went there because it was a hot and sunny day so I wanted to go for a swim at the beach.

I built sandcastles and swam at the beach. There were a lot of people and lots of sea creatures like crabs, seahorses, jellyfish, and turtles. At night, we also went to a seafood restaurant. The food there was very delicious.

Did you do anything fun last Saturday? Write soon.

Best wishes,
Martin

To Sai Kung

Dear Judy,

How are you?

Last Sunday, my mum and I went to a beach at Sai Kung because I wanted to swim. It was opened when we arrived there. I felt very excited because there were so many kids. I played and swam with them. I saw many shells there as well. It was a nice day.

Could you share your weekend activities with me?
Thank you.

Best wishes,
Martin

A Great Holiday

Dear Uncle and Aunt,

Thank you very much for a great holiday. I enjoyed my stay with you.

I watched a football match in London. It was nice. I visited the British Museum. I enjoyed the visit very much. The Face Statue was the most interesting thing there because it was strange but artistic. Aunt made me fish and chips and homemade salad. They were tasty. I loved them very much.

Thank you once again, Uncle and Aunt, for making my visit so enjoyable!

I want to invite you to stay with me in Hong Kong so I can cook for you.

With love,
Martin
